- * Short listed abstracts will be intimated by e-mail

ORGANIZED BY

DEPARTMENT OF PHARMACOLOGY & TOXICOLOGY

NATIONAL INSTITUTE OF PHARMACEUTICAL EDUCATION AND RESEARCH (NIPER), GUWAHATI, CHANGSARI-781101, ASSAM

About Symposium

North East India is a affluent reservoir of flora and fauna. Use of traditional medicines are growing its interest and widely accepted worldwide. The extensive variety of tribes and their vast traditional knowledge made this area a prime region of scientific investigation. North East Indian population are highly prevalent to neurological disorders which includes Epilepsy, Alzheimer's, Parkinson's disease. Thus there is need to explore the use of traditional medicines/other resources in the management of neurological disorders. This symposium will emphasize valuable insights into various aspects of traditional medicines/novel drug discovery approaches/biomarker identification and their utilization in the management of neurological disorders by providing the lectures of eminent researchers and academicians. This symposium will provide the opportunities to the young researchers to showcase their research by oral and poster presentation.

About NIPER Guwahati

National Institute of Pharmaceutical Education and Research (NIPER), Guwahati is the first national level institute in pharmaceutical sciences with a proclaimed objective of becoming a centre of excellence for advanced studies and research in pharmaceutical sciences. The Government of India has declared NIPER as an 'Institute of National Importance'. It is an autonomous body set up under the aegis of Department of Pharmaceuticals, Ministry of Chemicals and Fertilizers, Government of India. The Institute is conceived to provide leadership in pharmaceutical sciences and related areas not only within the country, but also to the countries in South East Asia, South Asia and Africa. NIPER is a member of Association of Indian Universities and Association of Commonwealth Universities.
